25+ years 12 companies Middle East & global Former CTO

EXECUTIVE SUMMARY

Consulting Director at **PwC Middle East**, former **Chief Technology Officer** and senior **Solutions & Software Architect** with **25+ years** building and leading software teams across the Middle East and globally. I take large, complex programmes from proposal to production: architecture, onsite and offshore delivery, UAT and operations handover. My work includes **Oman's eVisa (SITA)**, **Microsoft's Global TV White Spaces database**, **SADAD**, provisioning for **Zain KSA**, **STC** enterprise IMS and **UNRWA** refugee registration. I build cohesive, productive teams where new ideas become business growth.

CORE COMPETENCIES

Leadership

Technology strategy, CTO office, programme and delivery management, onsite / offshore teams

Platforms

J2EE, Oracle DB, OSB & SOA, Apache ServiceMix / Camel, Microsoft .NET / C#, IBM WAS, Red Hat

Architecture

Enterprise and solution architecture, SOA, ESB and integration, reporting and centralised logging

Telecom

Provisioning and fulfilment, VAS (HLR, PCRF, SIM OTA, NPS), OSS / BSS, enterprise IMS

Consulting

Digital transformation, presales and RFPs, ALM / SDLC consulting, UAT and stakeholder management

AI & domains

Python, TensorFlow, chatbots; e-government, eVisa, payments, HR & payroll, GRP, BPM

SELECTED NATIONAL PROGRAMMES

Oman eVisa

SITA · Royal Oman Police · 5+ systems, 25 devs

Microsoft TV White Spaces

Global database · UK Ofcom certified

SADAD · KSA

Products around national bill payments

Zain KSA · STC

Provisioning platform · enterprise IMS

EXPERIENCE

Consulting Director · PwC Middle East

Dec 2023 – Present · Amman

PwC's Middle East firm, with around 30 offices in 12 countries, advising governments and enterprises.

- Lead **technology and transformation consulting** engagements for public- and private-sector clients.
- Shape **solution architecture, delivery approach and teams** from proposal through to go-live.

Chief Technology Officer · Shepherd Technologies

Sep 2021 – Nov 2023 · Jordan

HR technology company behind Shepherd HR: talent management, payroll, attendance and performance.

- Led **technology strategy, product architecture and delivery** of scalable talent-management solutions: HR, payroll, workforce planning and succession, on cloud and on-premise.
- Built and ran the engineering organisation and its delivery process.

Sr. Solutions Architect · SITA

Jan 2018 – Aug 2021 · Muscat, Oman

The air-transport industry's IT provider (Geneva, 1949), also delivering border management and eVisa for governments.

- Architecture, design and development of the **Oman eVisa System**: five-plus integrated enterprise systems on **J2EE**, **Apache ServiceMix / Camel**, **Oracle DB**, **OSB & SOA** and **.NET**.
- Coordinated **enterprise reporting, centralised logging and document processing** with client, SITA product and O&M teams.
- Managed a team of 25 developers.

Software Development Manager · Sr. Software Architect · BlackStone eIT

2016 – 2018 · Amman

Systems integrator and software vendor for digital transformation and process automation.

- Delivered **Microsoft's Global TV White Spaces database** and calculation engine with Microsoft R&D (Seattle), through **UK Ofcom certification**; delivered the authentication back end for **Microsoft Skype WiFi**.
- UAE enterprise projects: **ADNOC e-Services** and a **GASCO robotics assistant** on NAO and Pepper; chatbots (Bot Framework, RASA, Watson), facial and emotion recognition (Python, TensorFlow).

— EXPERIENCE (CONTINUED) —

Software Development Manager · Sr. Software Architect · CATEC

2014 – 2016 · Amman

- Technical architecture for enterprise solutions; led multiple development teams across technologies.
- Proofs of concept for new technologies; delivery, UAT and presales support.

VAS B.O. Sr. Consultant · Huawei Technologies

2013 – 2014 · Saudi Arabia

- Owned core VAS elements for a Saudi operator: **provisioning (SAAM), HLR, OneNDS, SIM OTA, NPS and PCRF**; built integration and operations tools.

Products Architect · Professional Services Manager · Secure Services Systems (SSS)

2012 – 2013 · Riyadh & Amman

- Product architecture and roadmap for **Appian BPM, GRP, SADAD** and **eMorasalat** correspondence management.
- Built a new **ALM and SDLC consulting** offering; responded to RFPs with the sales team.

Solutions Architect · Nokia Siemens Networks

2009 – 2012 · Riyadh & global

- Architected the **provisioning and service-fulfilment platform at Zain KSA**, integrating every network element (HLR, IN and more).
- Contributed to **STC's enterprise IMS (IPCx)**; managed remote teams in India and Poland.

Solutions Architect · Estarta Solutions

2006 – 2009 · Amman & Riyadh

- Architected a **12-module Government Resource Planning** suite (HR, payroll, finance, budgeting, inventory, purchasing) on the Microsoft stack.
- Designed **UNRWA's Refugee Registration System**, serving Palestine refugees across the Middle East.

— EARLY CAREER —

Sr. Technical Consultant · InnoKAT

2005 – 2006 · Amman & Gulf

- Led RFID R&D on Oracle Sensor Edge Server; Hummingbird DMS; SMS travel and notification system.

Solutions Architect · Javna Wireless

2002 – 2005 · Amman

- Epicenter enterprise messaging across voice, SMS, fax and MSN, Yahoo!, ICQ and AOL; an enterprise bulk-SMS platform.

Sr. Software Engineer · One World Software Solutions

1999 – 2002 · Amman & Boston

- Built **IMlogic** chat logging for AOL, Yahoo! and ICQ (IMlogic was later acquired by Symantec); a web collaboration system.

— EDUCATION —

BSc Computer Engineering · Jordan University of Science & Technology

1994 – 1999

— LANGUAGES —

Arabic: native · **English:** fluent, full professional proficiency

— HOW I LEAD —

- **Architecture that lasts:** integration-first designs that survive scale, new vendors and years in production.
- **Delivery you can plan on:** clear scope, honest status and UAT the customer signs with confidence.
- **Teams that grow:** onsite and offshore teams that share one standard and one goal.
- **Business first:** technology choices tied to outcomes for governments, telcos and enterprises.
